Homework, worksheet, and lab template

Your Name Here

Prepared for ITMD/ITMS/STAT 514, Spring 2021

```r
# We'll list any librareis  we need to use for the document here.
```

1. Hello World!

Here's an R code chunk that prints the text 'Hello world!'.

```r
print("Hello world!")
```

```
[1] "Hello world!"
```

2. Loading data

For this example we'll use a very simple dataset. The `cars` data comes with the default installation of R. To see the first few columns of the data, just type `head(cars)`.
```r
plot(cars)
```

. . . . Note: this is **not** a good plot. What is it? What's the headline? Let's try again.

```r
plot(cars,
     main="Here's the title of the plot",
     xlab="I changed the x label :)")
```

Here's the title of the plot

I changed the x label :)
